

# Add Titan Network in Metamask

This section will guide you through the step-by-step process of installing the MetaMask wallet in your Chrome browser. Additionally, we will delve into the procedure for adding the Titan network to the MetaMask wallet.

## How to Install MetaMask in Chrome #

1. Open the Chrome browser and Login to Google (<https://www.google.com/>)
2. After login, click the button at the top right as shown in the screenshot
3. Click on Extensions
4. Click Visit Chrome Web Store

- The Chrome Web Store window will open once you have followed the earlier instructions. Like in the screenshot above, you will notice a search bar in the Chrome Web Store's top left corner. Click on the search bar and enter "MetaMask" to initiate a search for the extension.

## Allow this site to switch the network?

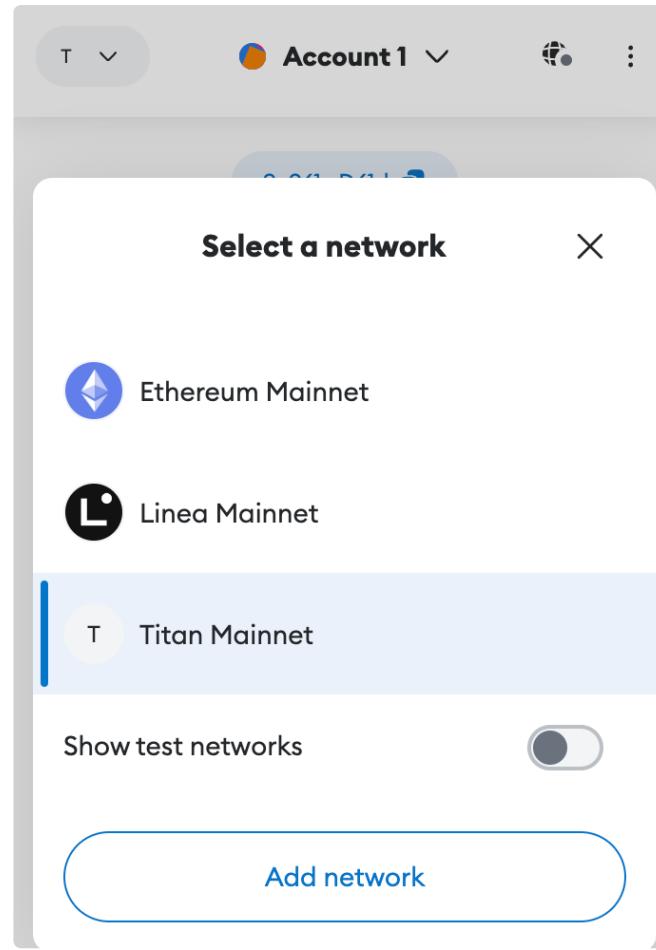

This will switch the selected network within MetaMask to a previously added network:

Cancel

Switch network

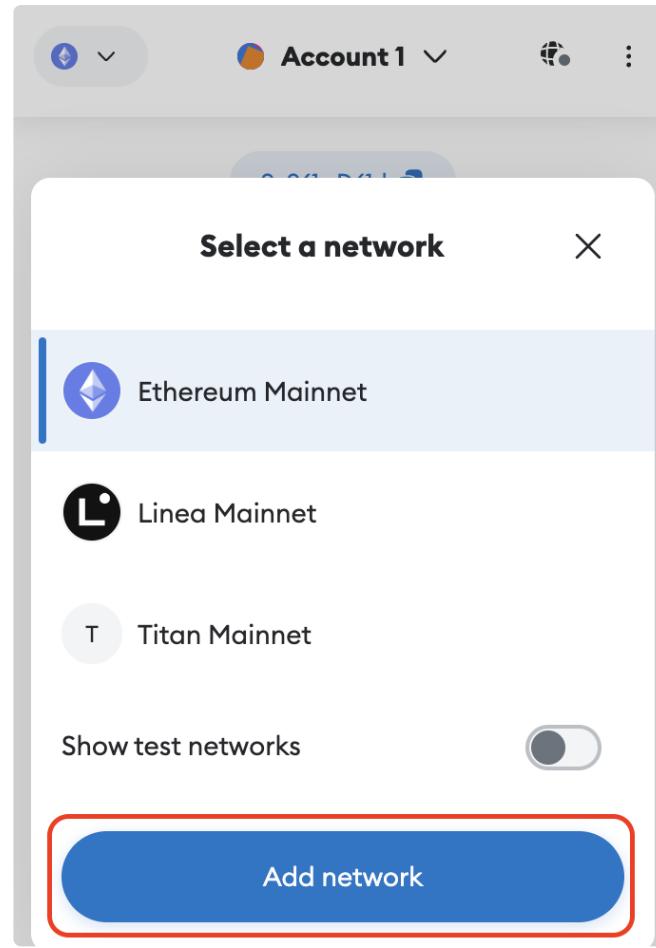

- After pressing the Approve button, the following screen will appear. Click the Switch Network button on the screen.

- If you click the switch network button, you can see that the Titan Mainnet network has been added as follows.

## How to Add Titan Network in MetaMask (Method 2)

- Click on the Metamask icon you installed earlier. After that, click the Ethereum Mainnet button.

If you click Ethereum Mainnet, the above screen will appear. Click the Add Network button.

The screenshot shows the Metamask Settings page with the 'Networks' tab selected. Under 'Add a network', there is a list of networks with their icons and names: Arbitrum One, Aurora Mainnet, Avalanche Network C-Chain, BNB Smart Chain (previously Binance Smart Chain Mainnet), Celo Mainnet, Fantom Opera, Harmony Mainnet Shard 0, Optimism, Palm, and Polygon Mainnet. Each entry has an 'Add' button to its right. At the bottom, there is a link 'Add a network manually'.

When you click the Add Network button, the following screen appears. On the next screen, click Add Network Manually.

## Networks &gt; Add a network &gt; Add a network manually

**i** A malicious network provider can lie about the state of the blockchain and record your network activity. Only add custom networks you trust.

**Network name**

**New RPC URL**

**Chain ID** ⓘ
**Currency symbol**

**Block explorer URL (Optional)**

**Cancel****Save**

- Once you click Add Network Manually, the following screen will appear.

- Network name : Titan
  - New RPC URL :<https://rpc.titan.tokamak.network>
  - Chain ID : 55004
  - Currency symbol : ETH
  - Block explorer URL (Optional) :<https://explorer.titan.tokamak.network>
- Fill in the fields with the above data.

## Networks &gt; Add a network &gt; Add a network manually

**i** A malicious network provider can lie about the state of the blockchain and record your network activity. Only add custom networks you trust.

**Network name**

**New RPC URL**

**Chain ID** ⓘ

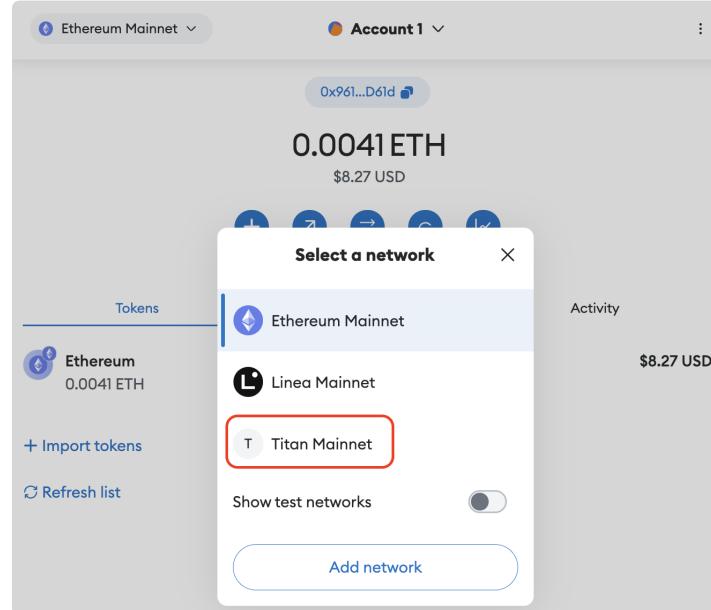

This Chain ID is currently used by the Titan Mainnet network.

**Currency symbol**

**Block explorer URL (Optional)**

**Cancel****Save**

- Click the save button.

- After saving, you can see that the Titan network gets added, as shown above.
